

PROPS!

David Ross (SCPD)
my name

Simon (Hopefully)
recipient's name (OK if you don't know)

Examples:

- _____ Asked a question I also had
- _____ Was helpful/a good listener/encouraged me or a classmate
- _____ Asked a question showing their interest in a classmate's ideas
- _____ ✓ Contributed something I thought was interesting
- _____ Other (explain below)

Explanation/details:

During the discussion of the GL_NEAREST parameter Simon made an interesting comment about the mapping of a small png to a large pixel buffer and how it would look like you just magnified the png pixels. This reminded me of a portion of the paper "A Pixel is Not A Tiny Square" where the author discusses how a box filter gives you this magnification effect.
